In this session we will explore the emerging 5 critical areas that leaders need to focus and excel in for today's workforce. Using recent research and live client case studies, Alistair Dornan will guide delegates towards an action plan, helping your people feel different about work

11:20-12:10 SESSION 2A: FLOODING CLAIMS

Perry Hill, DWF

A reprise of DWF's interactive claim game - this time focusing on claims arising out of flooding incidents. Participants will be faced with a range of factual scenarios and asked to determine whether they will fight or settle the claim. There will be winners and losers but all delegates will go away with a better developed knowledge of the legal challenges faced in dealing with flooding claims.
